Relevant professional experience	
April 2020 – March 2021	Development of Capacities for Green Climate Fund Project Development <i>African Development Bank (AfDB), Climate Change and Green Growth Department (PECG)</i> Media coordinator and project assistant Assisting on project to develop a training course to capacitate a regional pool of experts to support African Direct Access Entities (DEAs) in developing successful project proposals to access the Green Climate Fund (GCF) through conducting a blended learning course. Course consists of combination of course notes, expert videos, live webinars, online discussion forum and quizzes and groupwork assessments. Three courses were conducted concurrently – for each language: English, Portuguese and French. Tasks include: coordinating video production, including filming and multiple rounds of editing and creation of animations for videos; generation and cleaning of transcripts; designing infographics and coordinating with designer for complex graphics; design of basic course graphics, including flyer, and document design; development of all online surveys; editing of content on Open edX online platform; setting up Zoom webinars and providing technical support; supporting student admin and tracking; and manning of helpdesk.
February – September 2020	Training Manual on the preparation of proposals to access funding for Sustainable Ground Water Management in SADC Member States Southern African Development Community Groundwater Management Institute (SADC-GMI), funded by the World Bank Media coordination This project aimed to address some of the challenges of accessing finance for groundwater infrastructure investments in the SADC region, through development of a stakeholder needs-

driven, user-friendly training manual for project proposal preparation to access funding for groundwater related infrastructure projects.

Tasks included: coordinating video production with Hubble Studios, and filming and editing of additional videos; designing infographics and coordinating with designer for complex graphics; design of basic course graphics, including flyer, and document design; development of all online surveys; editing of content on online Open edX based platform; development of Online Resources library (using Google Sites and Drive).

January – September 2020 Scaling Climate Action Through Climate Technology and Innovation by SMEs
African Development Bank, Climate Change and Green Growth Department (PECG); under Natural Eco Capital

Video editor

This project aimed to enhance the capacity of small and medium-sized enterprises (SMEs) to develop businesses through accessing opportunities in the climate resilience and response space, as aligned with Nationally Determined Contributions, and/or to de-risk their enterprises against climate change.

Tasks: coordination of filming; editing of three training videos to introduce SMEs to climate change and action, and demonstrate use of two toolkits – 1) Climate Change Risk and Opportunity Screen Toolkit and 2) Business Carbon Footprint Toolkit.

Aug 2019 – current OneWorld Sustainable Investments
Development and implementation of Knowledge Sharing and Learning Strategy

Knowledge analyst

The key objective of this role is to provide a support and coordination function that enables integrated knowledge development that is driven by the project managers. The aim of the role to manage and improve internal knowledge management, development and dissemination to enable the Organisation to better leverage OneWorld’s unique position in the global knowledge value chain.

Regular tasks include: Identifying opportunities, platforms and channels for knowledge dissemination; managing web content and updating OW’s WordPress website; running social media presence; updating and coordinating management of internal knowledge relevant to business development; developing marketing materials; managing and manning audio-visual equipment; developing and curation digital asset base; ad-hoc video filming and editing; coordinating newsletter inputs, mailing list and design (when active); and media based project support.

Sep - Dec 2017 City of Cape Town
Cape Town Residential Electricity Savings Campaign - Updating the www.saveelectricity.org.za website

Project coordinator and content creator

The project involved coordinating the update of the web platform for the City of Cape Town Electricity Savings Campaign www.saveelectricity.org.za.

The role involved driving the update in terms of design, functionality and content of the web platform, involving using data from Google Analytics to guide the development of online content, and liaising with web designers, staff and other stakeholders, such as the Solar Water Heater Programme accredited service providers.

April – Nov 2018 City of Cape Town

Update of the ‘Resource Efficiency Criteria for Development’ Booklet

Project coordinator

The project involved driving the update of the Resource Efficiency Criteria for Development for Buildings (RECD) booklet, as part of the City of Cape Town’s (CCT) Net-Zero Buildings Programme to promote sustainable practices in development and building design.

This involved initial research and rewrite of outdated content and addressing identified gaps, followed by engaging expert officials on best practice, policy and regulations regarding resource efficiency in buildings, and securing inputs and collating feedback from them. Facilitating expert review, copy editing and publishing services.

April 2017- Aug 2018 City of Cape Town

City of Cape Town’s annual carbon and energy reporting on the CCT Carbon Disclosure Platform

Project coordinator

The project entailed coordinating the City’s annual submission of the GHG inventory and climate data to the Carbon Disclosure Project (CDP) as part of its commitment to C40 Cities and the Global Covenant of Mayors for Energy and Climate Change.

Coordinated the annual submission of Cape Town’s full GHG inventory and required sectoral data (including buildings, transport and waste) data, policy and project information. This involved acquiring, collating and adapting data from relevant departments and the National Department of Energy and updating and writing policy and project information. Assisting the technical specialist with accessing relevant data and compiling City-level GHG inventory.

This also included tracking project progress and data over time and building and maintaining a miniature ‘State of Energy’ database for internal use and analysis and reporting on progress towards energy and carbon targets to internal committees and global platforms.

Cape Town’s annual submissions can be viewed on www.cdp.net

July 2017 – June 2018 City of Cape Town

Solar Water Heater Accreditation and Marketing Programme

Interim manager

This project involved managing and coordinating the City of Cape Town’s residential Solar Water Heater Programme (part of the Electricity Savings Campaign) on an interim basis

Managing and monitoring the activities and compliance of accredited service providers; monitoring the online leads management system of saveelectricity.org.za website; coordinating programme marketing; coordinating public promotional communications and advertisements; responding to customer complaints and queries; assisting with the strategic development and transformation of the programme.

June 2018 – Dec 2018 City of Cape Town

Solar photovoltaics (PV) Promotion and Registration Campaign

Interim manager

This project entailed assisting with the development and implementation of the Solar PV promotional campaign and the communication strategy for the small-scale embedded generation (SSEG) registration drive.

This included driving the update and managing the updating process and graphic design of the ‘Rooftop PV: Guidelines for safe and legal installations in Cape Town’ booklet, as well as updating relevant content on the City of Cape Town website and the www.saveelectricity.org.za website. Designed and published informational print and online content for residents and industry, as part of the SSEG registration drive to ensure residential owners of solar PV systems are registered

and compliant with City regulations. Content can be viewed at www.capetown.gov.za/solarPV. Organised engagement and informative sessions and workshops with key industry stakeholders.
