Languages	English (fluent), Afrikaans (basic)

Employment record

July 2024 – current	<p>Knowledge and Communications Manager OneWorld Sustainable Investments</p>
Feb 2019 – June 2024	<p>Technical Analyst: Knowledge OneWorld Sustainable Investments</p>
Feb 2018 – Dec 2018	<p>Renewable energy & energy efficiency facilitation contractor City of Cape Town</p>
Feb 2017 – Jan 2018	<p>Sustainable Energy Assistant (Internship) City of Cape Town</p>
Nov 2014- Jan 2015	<p>Researcher's Assistant (Internship) South African Institute of International Affairs, Governance of Africa's Resources Programme</p>

Relevant professional experience

September 2023 – Current	<p>Development of a Climate Landscape Analysis for Children (CLAC) in Ethiopia UNICEF Ethiopia</p> <p>Graphic designer and publication designer</p> <p>The objective of the CLAC is to assess the baseline situation of climate, energy, and environment-related (CEE) issues affecting children and provide recommendations on how the integration of these issues can be integrated in the programmes supported by UNICEF, particularly in child protection, education, health, nutrition, and WASH sectors.</p> <p>Responsible for designing engaging diagrams and infographics for the various project reports and presentations, sourcing and editing photography for publications, as well as doing layout and design of the final CLAC document and Policy Brief.</p>
October – December 2023	<p>UNESCO-UNEVOC Technical and Vocational Education and Training (TVET) Leadership Programme 2023: Facilitation and Contribution of Additional Learning Resources</p> <p>International Centre for Technical and Vocational Education and Training (UNEVOC) of the United Nations Educational, Scientific and Cultural Organization (UNESCO)</p> <p>Online training manual design and webinar technical assistance</p> <p>Developed and delivered the 2023 edition of the UNESCO-UNEVOC TVET Leadership Programme on the topic 'Managing change through transformative leadership'. OneWorld</p>

facilitated five interactive online webinars, co-developed a set of training resource packages and materials, provided experts, and set and marked assignments for participants.

Responsible for designing the training materials on the Articulate Rise authoring system, including creating interactive graphics and activities; setting up an online knowledge-sharing platform for participants to discuss, providing technical assistance before and during the interactive online webinars, and drafting a final report on the TVET Leadership Programme 2023, including the implementation of a survey instrument related to the evaluation/feedback from participants

July 2022 –
January 2023

Development of a Climate Landscape Analysis for Children (CLAC) including a Climate Financing Strategy for two priority areas in Angola

UNICEF

Publication design and graphic design

This project involved developing a Climate Landscape Analysis for Children (CLAC) for UNICEF Angola Country Office which aims to understand the overall Climate, Environment and Energy (CEE) landscape in Angola in terms of data availability, existing law, policy and regulations, risks to children and potential benefits of climate actions, and the gaps in its consideration for children and child-sensitive approaches, to inform UNICEF’s ongoing and future programmes in the country.

Responsibilities included graphic design of required diagrams and infographics, and design of final CLAC publication in coordination with the project team, according to UNICEF brand book and making use of official UNICEF icons.

November 2022 –
February 2023

UNESCO-UNEVOC TVET Leadership Programme 2022: Facilitation and contribution of additional learning resources

United Nations Educational, Scientific and Cultural Organization (UNESCO)

Technical backstopping & workshop interactive tools facilitation

The UNESCO-UNEVOC TVET Leadership Programme (TLP) aims to build the capacity of global TVET leaders and professionals. OneWorld was contracted to facilitate the 2022 online TLP edition programme, focusing on ‘Re-thinking TVET systems and to anticipate demand, adapt and take action for a just and green transition.’ The training is to provide insight into the concepts of greening and related market trends, and to support participants in adapting to, and adopting the just and green transition in TVET institutions.

Hilary assisted with the technical planning, training and facilitation of the workshop, by setting up and guiding facilitators and participants through interactive digital tools such as Mentimeter and Zoom Whiteboard, as well as providing technical support before and after webinars.

May 2021 – May
2023

Technical Assistance to the Cities Support Programme (CSP): Climate Resilience Projects Strengthening Intergovernmental Coordination

Government Technical Advisory (GTAC), South African National Treasury

Knowledge snippets author

The CSP seeks to improve climate resilience and urban governance of South Africa’s eight metros. This project focuses on designing and implementing adaptive processes and capacities for establishing and maintaining partnerships for climate resilience, renewable energy, disaster risk management, and climate finance across targeted metros.

Hilary assisted with researching and writing short news snippets covering events, workshops and projects related to this project, for publishing the CSP website.

June - July 2022

Environmental Awareness, Sustainability and Green Practices Training in IRM Businesses

National Business Initiative (NBI)

Helpdesk

As part of the Installation, Repair and Maintenance (IRM) Initiative, NBI together with the government and private sector are embarking on training of TVET students to expand their opportunities to embark on artisanal learning and employment pathways. The Initiative is a demand-led skills training space and workplace learning for entry-level employment positions in artisanal businesses. OneWorld was responsible for developing and delivering training material on environmental awareness and sustainable green practices.

Hilary assisted with the facilitation and delivery of the virtual training, by preparing preparatory materials, running the helpdesk for students, facilitating the interactive Mentimeter and post-training survey and compiling materials for sharing post-workshop.

July 2021 – July 2022

Paris Agreement: Gender Mainstreaming in Nationally Determined Contribution (NDC) Enhancement in South Africa

UNDP South Africa

Outreach material developer

Ensuring that climate change and gender are mainstreamed into the implementation of South Africa’s revised NDC.

Tasks include developing a series of short videos and social media graphics designed to share key messages about gender and climate change issues with selected rural communities, as part of a targeted outreach campaign.

December 2021 – June 2022

Just Transition Framework, South Africa: Community and Stakeholder Engagement

Presidential Climate Commission (PCC), Trade & Industrial Policy Strategies (TIPS), Deutsche Gesellschaft für Internationale Zusammenarbeit GmbH (GIZ)

Communications and design

Project involved community and stakeholder engagements aimed at identifying and capturing the voices of vulnerable affected communities and parties regarding what constitutes a just transition.

Activities included reaching out to stakeholders regarding stakeholder and community meetings and engagements, managing the stakeholder database, and designing various social media graphics and print flyers for communities.

January 2021 – December 2022

Strengthening Lesotho’s National Designated Authority (GCF) and developing strategic frameworks

Development Bank of Southern Africa (DBSA)

Online course facilitator, platform administrator, publication designer

The project involves establishing and strengthening institutional frameworks to enhance engagement with the GCF and the global climate finance landscape.

Responsible for running online courses on Google Classroom, email, and WhatsApp for over 100 participants from Lesotho, including from the Nationally Designated Authority (NDA). Handled all course administration and communications, ran the various platforms and managed course materials uploads and formatting, designed course and project-related outreach materials and material (such as graduation certificates) and ran the course helpdesk.

2021-2022

Financial Sector Credit Facility for SMEs (FSCFS)

African Development Bank (AfDB)

Survey and communications assistant

Project involves developing a green credit facility in order to scale up SMEs’ access to climate finance and to promote green investments in relevant sectors of the economy through mobilising concessional and non-concessional resources to African SMEs and Youth-led businesses

Constructed an attractive and easy-to-complete online survey, managed responses and conducted all communications with potential respondents.

December 2020 – current	<p>Management of Adaptation Benefit Mechanism (ABM) Roster of Experts African Development Bank (AFDB), Climate Change and Green Growth Department (PECG)</p> <p>Project assistant</p> <p>Project involves support to the development of the Adaptation Benefit Mechanism (ABM), aiming to mobilise new public and private sector finance for African climate change adaptation projects. The ABM is utilising a roster of experts to provide support on ABM methodology panel.</p> <p>Assisting with processing experts’ applications to join the roster: screening applications and recommending qualified experts to join the roster, managing a database of experts according to their area of expertise.</p>
July – Dec 2021	<p>Strengthening the Participation of African non-Party Stakeholders in the UNFCCC Processes Konrad-Adenauer-Stiftung (KAS)</p> <p>Media manager</p> <p>Project to support the development of a strengthened African voice in COP26 climate negotiations and supporting the role of non-Party stakeholders in revising Nationally Determined Contributions (NDCs): Scoping and stakeholder mapping; design/development of an online exchange platform; training materials development and capacity building; and public outreach.</p> <p>Tasks involved designing and implementing knowledge management and dissemination strategy, graphic design of all social media graphics, design and typesetting of 3 knowledge products, video editing, community moderation, website design, and social media management.</p>
April – Sept 2021	<p>Support the Development of Cadre and Portal Design Studies for Inclusive Budgeting and Financing for Climate Change in Africa (IBFCCA) Collaborative Africa Budget Reform Initiative (CABRI)</p> <p>Knowledge sharing coordinator</p> <p>Support in designing and developing a cadre and knowledge portal to strengthen mainstreaming of climate change and gender into public financial management (PFM) systems. Includes contributing to recommendations for development of a cadre and an online knowledge portal to be used internally by program partners and the cadre, and externally by governments, legislatures, and civil society organisations.</p>
April 2020 – March 2021	<p>Development of Capacities for Green Climate Fund Project Development African Development Bank (AfDB), Climate Change and Green Growth Department (PECG)</p> <p>Media coordinator and project assistant</p> <p>Assisting on project to develop a training course to capacitate a regional pool of experts to support African Direct Access Entities (DEAs) in developing successful project proposals to access the Green Climate Fund (GCF) through conducting a blended learning course. Course consists of a combination of course notes, expert videos, live webinars, online discussion forum and quizzes and groupwork assessments. Three courses were conducted concurrently – for each language: English, Portuguese and French.</p> <p>Tasks include: coordinating video production, including filming and multiple rounds of editing and creation of animations for videos; generation and cleaning of transcripts; designing infographics and coordinating with designer for complex graphics; design of basic course graphics, including flyer, and document design; development of all online surveys; editing of content on Open edX online platform; setting up Zoom webinars and providing technical support; supporting student admin and tracking; and manning of helpdesk.</p>
February – September 2020	<p>Training Manual on the preparation of proposals to access funding for Sustainable Ground Water Management in SADC Member States</p>

Southern African Development Community Groundwater Management Institute (SADC-GMI), funded by the World Bank

Media coordination

This project aimed to address some of the challenges of accessing finance for groundwater infrastructure investments in the SADC region, through development of a stakeholder needs-driven, user-friendly training manual for project proposal preparation to access funding for groundwater-related infrastructure projects.

Tasks included: coordinating video production with Hubble Studios, and filming and editing of additional videos; designing infographics and coordinating with designer for complex graphics; design of basic course graphics, including flyer, and document design; development of all online surveys; editing of content on online Open edX based platforms; development of Online Resources library (using Google Sites and Drive).

January –
September 2020

Scaling Climate Action Through Climate Technology and Innovation by SMEs

African Development Bank, Climate Change and Green Growth Department (PECG); under Natural Eco Capital

Video editor

This project aimed to enhance the capacity of small and medium-sized enterprises (SMEs) to develop businesses through accessing opportunities in the climate resilience and response space, as aligned with Nationally Determined Contributions, and/or to de-risk their enterprises against climate change.

Tasks: coordination of filming; editing of three training videos to introduce SMEs to climate change and action, and demonstrate use of two toolkits – 1) Climate Change Risk and Opportunity Screen Toolkit and 2) Business Carbon Footprint Toolkit.

August 2019 –
current

Co-Development and implementation of Knowledge Sharing and Learning Strategy

OneWorld Sustainable Investments

Knowledge analyst

The key objective of this role is to provide a support and coordination function that enables integrated knowledge development that is driven by the project managers. The aim of the role to manage and improve internal knowledge management, development and dissemination to enable the Organisation to better leverage OneWorld’s unique position in the global knowledge value chain.

Regular tasks include: Identifying opportunities, platforms and channels for knowledge dissemination; managing web content and updating OneWorld’s WordPress website; managing OW’s social media presence; updating and coordinating management of internal knowledge relevant to business development; developing and designing marketing materials, such as flyers; managing and manning audio-visual equipment; developing and curation of a digital asset base; ad-hoc video filming and editing; coordinating newsletter inputs, mailing list and design (when active); and media based project support.

September -
December 2017

Cape Town Residential Electricity Savings Campaign - Updating the www.savingelectricity.org.za website

City of Cape Town

Project coordinator and content creator

The project involved coordinating the update of the web platform for the City of Cape Town Electricity Savings Campaign www.savingelectricity.org.za.

The role involved driving the update in terms of design, functionality and content of the web platform, involving using data from Google Analytics to guide the development of online content, and liaising with web designers, staff and other stakeholders, such as the Solar Water Heater Programme accredited service providers.

April – November 2018	<p>Update of the ‘Resource Efficiency Criteria for Development’ Booklet City of Cape Town</p> <p>Project coordinator</p> <p>The project involved driving the update of the Resource Efficiency Criteria for Development for Buildings (RECD) booklet, as part of the City of Cape Town’s (CCT) Net-Zero Buildings Programme to promote sustainable practices in development and building design.</p> <p>This involved initial research and rewrite of outdated content and addressing identified gaps, followed by engaging expert officials on best practice, policy and regulations regarding resource efficiency in buildings, and securing inputs and collating feedback from them. Facilitating expert review, copy editing and publishing services.</p>
April 2017- August 2018	<p>City of Cape Town’s annual carbon and energy reporting on the CCT Carbon Disclosure Platform City of Cape Town</p> <p>Project coordinator</p> <p>The project entailed coordinating the City’s annual submission of the GHG inventory and climate data to the Carbon Disclosure Project (CDP) as part of its commitment to C40 Cities and the Global Covenant of Mayors for Energy and Climate Change.</p> <p>Coordinated the annual submission of Cape Town’s full GHG inventory and required sectoral data (including buildings, transport and waste) data, policy and project information. This involved acquiring, collating and adapting data from relevant departments and the National Department of Energy and updating and writing policy and project information. Assisting the technical specialist with accessing relevant data and compiling City-level GHG inventory.</p> <p>This also included tracking project progress and data over time and building and maintaining a miniature ‘State of Energy’ database for internal use and analysis and reporting on progress towards energy and carbon targets to internal committees and global platforms.</p> <p>Cape Town’s annual submissions can be viewed on www.cdp.net</p>
July 2017 – June 2018	<p>Solar Water Heater Accreditation and Marketing Programme City of Cape Town</p> <p>Interim manager</p> <p>This project involved managing and coordinating the City of Cape Town’s residential Solar Water Heater Programme (part of the Electricity Savings Campaign) on an interim basis</p> <p>Managing and monitoring the activities and compliance of accredited service providers; monitoring the online leads management system of saveelectricity.org.za website; coordinating programme marketing; coordinating public promotional communications and advertisements; responding to customer complaints and queries; assisting with the strategic development and transformation of the programme.</p>
June 2018 – December 2018	<p>Solar photovoltaics (PV) Promotion and Registration Campaign City of Cape Town</p> <p>Interim manager</p> <p>This project entailed assisting with the development and implementation of the Solar PV promotional campaign and the communication strategy for the small-scale embedded generation (SSEG) registration drive.</p> <p>This included driving the update and managing the updating process and graphic design of the ‘Rooftop PV: Guidelines for safe and legal installations in Cape Town’ booklet, as well as updating relevant content on the City of Cape Town website and the www.saveelectricity.org.za website. Designed and published informational print and online content for residents and industry, as part of the SSEG registration drive to ensure residential owners of solar PV systems are registered and compliant with City regulations. Content can be</p>

viewed at www.capetown.gov.za/solarPV. Organised engagement and informative sessions and workshops with key industry stakeholders.
